

APPLE iPad ACCESSIBILITY FEATURE OVERVIEW

Please visit Apple's website at
<https://www.apple.com/accessibility/ipad/> for
more information on Accessibility features.

LEARNING OBJECTIVES

There are more than 150 Accessibility features built into the iPad to complement the user's vision, hearing, and motor skills.

By the end of the training, you will:

- Be familiarized with many of the iPad Accessibility features
- Be able to discern who would benefit from which Accessibility features

VISION ACCESSIBILITY FEATURES

Vision Accessibility features include:

- Audio Descriptions
- Dark Mode
- Dictation
- Display Accommodations
- Font Adjustments
- Magnifier
- Siri
- Speak Screen
- VoiceOver
- Zoom

VISION ACCESSIBILITY: SIRI

- Virtual assistant
- Listens to requests and performs actions accordingly
- Understands context
- The more you use it, the better it understands your meaning

VISION ACCESSIBILITY: VOICEOVER

- Navigate iPad using gestures or braille display
- Hear description of everything on screen

VISION: VOICEOVER PRACTICE

Practice VoiceOver Gestures:

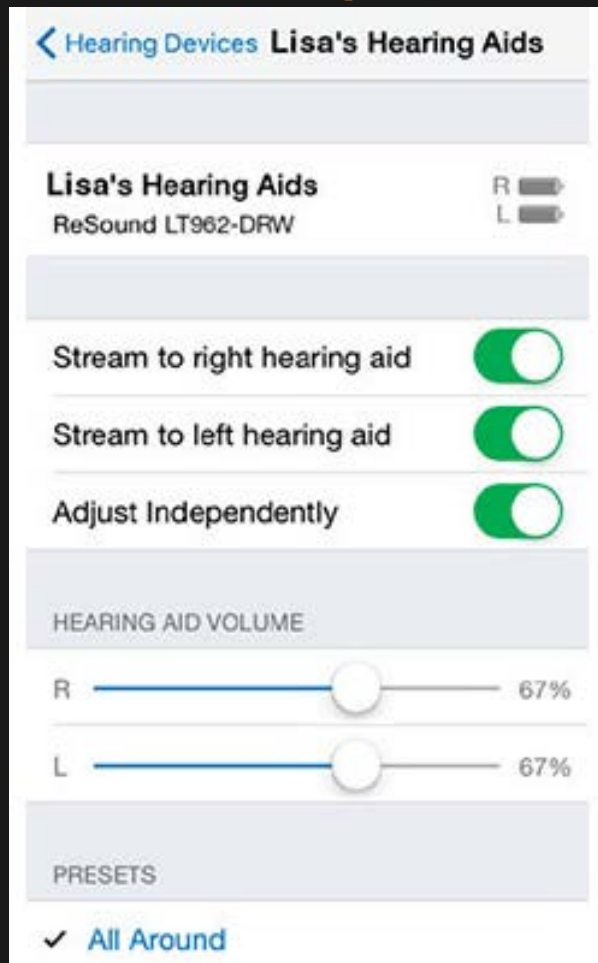

- Tap Settings
- Tap Accessibility
- Tap VoiceOver
- Toggle VoiceOver to On
- Tap VoiceOver Practice

HEARING ACCESSIBILITY FEATURES

Hearing Accessibility features include:

- Closed Captions
- FaceTime
- iMessage
- Live Listen
- Mono Audio
- Type to Siri

HEARING ACCESSIBILITY: LIVE LISTEN

Live Listen turns your iPad into a remote microphone that sends sound to made-for-iPhone/iPad hearing aids and can help you hear a conversation in a noisy room or hear someone speaking across the room.

HEARING ACCESSIBILITY: TYPE TO SIRI

Type to Siri is a function designed for those who are unable or have difficulty speaking. When enabled, the iPad Home button activates Siri and brings up the keyboard to type a command to Siri.

MOBILITY ACCESSIBILITY FEATURES

Mobility Accessibility features include:

- Assistive Touch
- Dictation
- Motor Control Assistance
- Predictive Text
- Predictive Text
- Switch Control
- Touch Accommodations
- Voice Control

MOBILITY: ASSISTIVE TOUCH

To turn Assistive Touch on:

- Tap Settings
- Tap Accessibility
- Tap Touch
- Tap Assistive Touch
- Toggle Assistive Touch to On
